

LeadingAge Wisconsin

Skilled Nursing Facilities

As a skilled nursing professional, are you looking for:

- The opportunity to network with a group of providers whose common goal is to provide quality services, quality care, and quality of life for seniors and for individuals with a disability
- Assistance to help you navigate challenges such as a tight economy, stringent regulations, frail residents, and overwhelmed employees
- The opportunity to participate in an association that takes a proactive position on public policy formation and works continuously towards a reasonable, rational, common-sense approach to the regulatory environment
- Timely updates and concise interpretation to help you understand public policy trends
- Consultation to help you implement regulatory initiatives
- Unparalleled sharing of ideas and resources among peers
- An aggressive and continuing effort to provide the information, education, tools, and resources you need to raise the bar of quality in your skilled nursing facility
- A library of policies and procedures
- Resources related to statements of deficiency and plans of correction
- Health survey citation statistics and resources
- Financial tools, templates, and benchmarks
- Medicaid and Medicare rate analytics
- Clinical tools and resources
- Workforce tools, resources, and best practices
- Tools to help you achieve compliance with emergency preparedness

LeadingAge™
Wisconsin
Better Services for Better Aging

LeadingAge Wisconsin has a reputation for quality and a tradition of excellence.

LeadingAge Wisconsin has a visionary focus, the staff maintains an ambitious work plan, and those we serve are united in the spirit of collaboration. We have more than a 60-year history to back up our commitment to quality to serve and assist skilled nursing facility professionals.

We have what are you looking for!

Synergy

Developed by LeadingAge Wisconsin, Synergy is an all-encompassing program to serve clinical professionals working in the skilled nursing facility environment. Synergy is based on the premise that the combined power of a group of people, when they are working together, is greater than the total power achieved by each working separately.

Through Synergy, you will have access to:

- Guidance on regulatory compliance
- Strategies and solutions for survey success
- Strategies for operational implementation and sustainability of clinical policies and procedures
- Assistance and guidance related to Clinical Element Pathways
- Analysis of survey trends, SODs, and plans of correction
- Quarterly meetings which feature informational updates, networking discussions, sharing forums, and case studies
- A website featuring shared policies, procedures, best practices, tools, and other resources

The strength of our Synergy is that this program is designed, developed, and sustained by the true experts in skilled nursing facility clinical care – people like you.

MDS Innovation Team

The LeadingAge Wisconsin MDS Innovation Team provides education, regulatory updates, and practical tips for success on the many facets of the Minimum Data Set.

The MDS Innovation Team meetings include industry updates/highlights from CMS and AANAC, updates and changes in reimbursement methodology, MDS coding, and quality indicators related to the MDS. Meetings provide the opportunity to ask questions, share concerns, and networking/learning from peers. Meetings also provide education on “hot button” topics – topics based on member requests or relevant changes from CMS.

These MDS meetings are typically of particular interest to MDS coordinators, DONs, staff education coordinators, admissions coordinators, and members of the interdisciplinary team.

LeadingAge Wisconsin encourages its members to achieve high professional standards and provide innovative approaches to the delivery of quality services, which are both effective and efficient, and which result in the enhancement and enrichment of the lives of those served.
