

WISCONSIN DEMENTIA CARE PROJECT

In partnership with the Wisconsin Department of Health Services, Division of Long Term Care, and a designated group of stakeholders, the University of Wisconsin Oshkosh Center for Career Development and Employability Training (CCDET) is currently developing dementia care guiding principles for caregivers, providers, and other professionals.

Based on these guiding principles, training related to dementia care is also in development and will be made available to numerous audiences. This training will be offered primarily online and will include competency evaluations and a certificate of completion process. This training will be instrumental in providing quality dementia care through well-trained, competent caregivers.

For more information regarding this project, please contact dementiacare@uwosh.edu.

Training Topics

- Crisis Response *\$60/\$30 Renewal - 4HR*

- Challenging Behavior Specialist Train-the Trainer - Classroom Training *\$150 6HR*

Online Dementia Registry Services

Individuals successfully completing CCDET's dementia care training will be listed on our public registry, designed and maintained by CCDET. To remain on the registry, individuals must take renewal courses every two years. These courses will be developed and delivered by CCDET as online trainings. Individuals must meet competency levels in order to remain on the registry.

This registry will be available to the public online.
